

DETECTACHEM

MobileDetect // APP + POUCHES

Automated Drug Detection On Your Smartphone

MobileDetect is a patented, Department of Defense-derived technology that converts smart devices into trace drug detection tools. MobileDetect brings advanced screening technology to law enforcement and first responders for detection of drugs in street and distribution packaging, mail and parcels, interdiction, and more. MobileDetect uses low cost test pouch consumables that can be further utilized with a free proprietary smart device application for automated wireless reporting.

Stafford, TX 77477

AUTOMATED DETECTION

With automated detection through the MobileDetect App, the user does not have to reference color charts and detection is not reliant on individual perception or at risk of human error.

TRACE & BULK SAMPLING

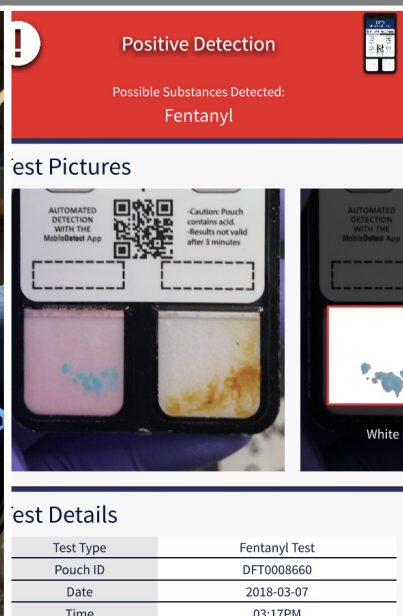

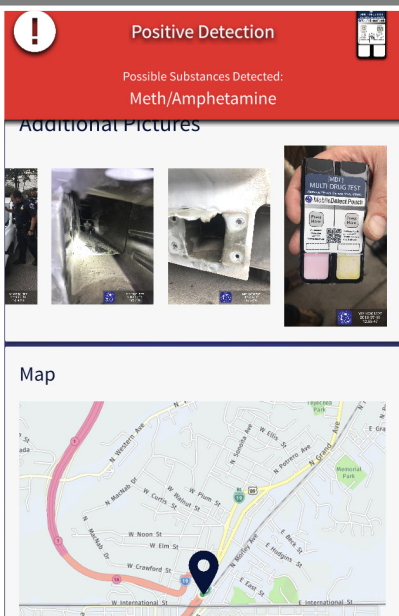

Our technology allows for residue or bulk sampling, requiring significantly less sample than older test kits.

LOGGING & REPORTING

The MobileDetect App allows for instant PDF reporting with pictures, GPS mapping, time/date stamp and more. Reports can be sent directly from your smart device.

USERS

Law Enforcement, Correctional Facilities, Military, Hazmat, School Resource Officers, Private Security, Personal Testing, and More

Technology

Automated Colorimetric

Sampling

Removable Swab for acquiring sample or particulate

Sample Type

Non-visible (trace) and Bulk
